EN

The Pan parasol opens by holding the handle **(1)** down and pushing the hub outwards **(2)**. Concluding the opening by lifting the handle upwards as far as it will go **(3)**.

The parasol closes in a single movement by grasping the handle and pulling it downwards. In this way it comes to the side pole leaving the area below free without moving tables and chairs.

FR

Pour ouvrir le parasol Pan, garder la poignée vers le bas **(1)** et pousser simultanément le support des baleines vers l'extérieur **(2)**. Terminer l'ouverture en poussant la poignée vers le haut aussi loin que possible **(3)**.

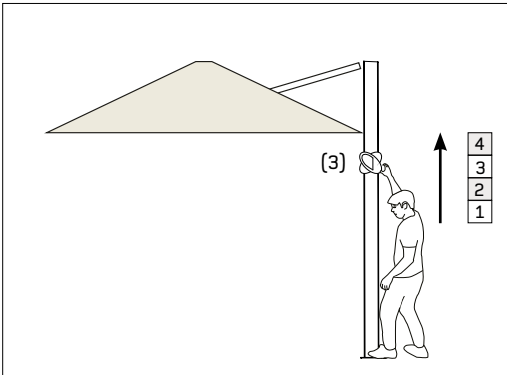

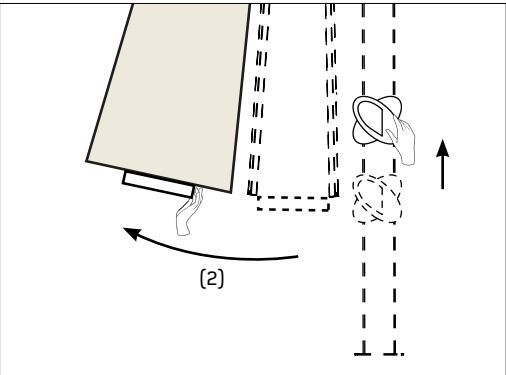

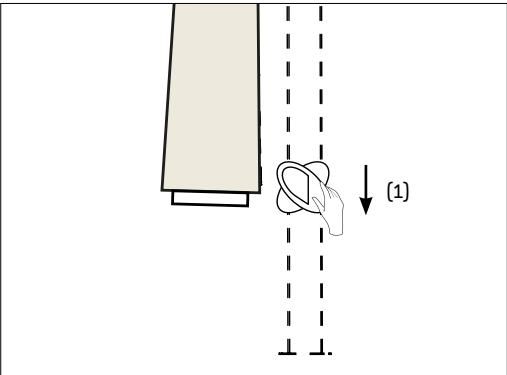

En tirant la poignée vers le bas, le parasol se ferme en un seul mouvement d'une façon escamotable contre le mât, laissant la zone en dessous libre sans avoir à déplacer les tables et les chaises.

ES

Para abrir el parasol Pan, mantenga pulsado el tirador hacia abajo **(1)** y empuje el buje hacia afuera **(2)**. Complete la apertura empujando el tirador hacia arriba hasta el fondo **(3)**.

Agarrando el tirador y traéndolo abajo, el parasol se cierra en un solo movimiento acercándose al brazo lateral y dejando libre la zona de abajo sin mover mesas y sillas.
